

Legend LPX Series Discrete Wired lightbars — NFPA Compliant Models

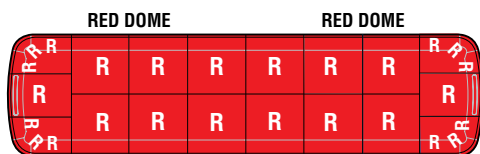

Federal Signal is proud to announce discrete Wired NFPA models* for the LPX Series product line. The LPX lightbar provides industry compliance with benefits of a premium bar at an economical price. Unlike other low-priced LED lightbars, the LPX Series incorporates several of Federal Signal’s distinctive technologies – Solaris LED Reflector Technology, and ROC Reliable Onboard Circuitry. The discrete wire harness allows for traditional apparatus installs without the use of an interface module.

* See reverse for compliant patterns.

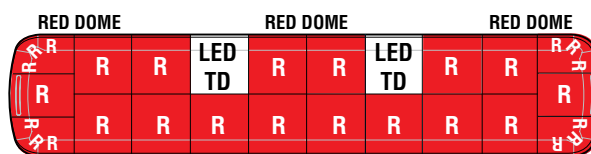

How to Order

Select preconfigured NFPA model below as part of an overall upper level warning package or contact your local Federal Signal Fire sales representative, visit our website at www.fedsig.com or contact us at 1-800-682-8022.
