

## Federal Signal Announces the new Amber LED Message Board available to order

The Amber LED Message Board is a public safety messaging system that incorporates an LED message display board with an internally-mounted controller. The controller enables the vehicle operator to activate the message display board and select from a pre-determined list of messages.

The system comes with a default set of messages as well as PC software that allows the administrator to create custom messages.

### Features:

- Incorporates a co-extruded, polycarbonate housing suitable for interior or exterior mounting
- Includes hardware kit with mount brackets and carriage bolts
- Board connects to controller via CAT5 serial cable
- LED display can be "dimmed" to adjust message contrast
- Keypad has adjustable backlighting
- LCD display has adjustable contrast
- System comes equipped with a default message set
- PC software allows administrator to create custom message sets
- Messages can be customized in a variety of ways:
  - Scrolling or steady-on
  - Scroll direction and speed
  - Flashing
  - Normal or bold font
- 672 Amber LEDs
- Can select from 128 different characters when customizing messages
- Custom message sets are downloaded to controller via user-supplied flash drive
- Federal Signal standard 3-year warranty
