

# MicroEscape™ LED

It Is What's Inside That Matters

# MicroEscape™ LED

The MicroEscape™ LED beacon offers exceptional performance by incorporating Solaris™ reflector technology and a built-in Intelli-Flash™ LED flasher. Each MicroEscape includes a permanent mount kit and models are available with color or clear lenses. This LED beacon is suitable for a variety of applications and may be part of an NFPA 1901 compliant lighting system.

Model #	Description	LED Color Options	List Price (US\$)
ME4QL-A	4 QuadraFlare LED reflectors, built-in flasher, color lens	Amber	\$698.00
ME4QL-R	4 QuadraFlare LED reflectors, built-in flasher, color lens	Red	\$698.00
ME4QLC-A	4 QuadraFlare LED reflectors, built-in flasher, clear lens	Amber	\$698.00
ME4QLC-R	4 QuadraFlare LED reflectors, built-in flasher, clear lens	Red	\$698.00
ME4QLC-B	4 QuadraFlare LED reflectors, built-in flasher, clear lens	Blue	\$698.00

QuadraFlare LED light heads feature Solaris reflector technology for intense and efficient light output.

A permanent mount is included with each beacon. No additional hardware is required.

Intelli-Flash LED flasher comes installed in every unit and provides a variety of flash patterns.
