

New DynaMax® Speaker - ES100

Federal Signal is pleased to announce the ES100 DynaMax speaker. The new DynaMax speaker uses the Federal Signal Neo driver which has a proven track record of performance and reliability.

Features

- > 100-watt output
- > New physical dimensions: 5.9"W X 5.5"H X 2.7"D
- > Larger diaphragm allows the speaker to capture lower frequency ranges.
- > NEO driver provides increased dependability
- > Black corrosion resistant aluminum housing
- > Sound output meets SAE J1849, Title 13 and Class A
- > Mounting brackets for most vehicles

The ES100 replaces the MS100 effective May 15, 2009. New mounting brackets are required and are referenced below.
