New Features for the JetSolaris® Lightbar

The JetSolaris lightbar is recognized for its durability and performance, and with the introduction of ROC (Reliable Onboard Circuitry™) with Solaris® Technology, the JetSolaris set a new standard for performance in an economically priced lightbar. The JetSolaris now includes several new features that make this lightbar even more versatile in Emergency Warning.

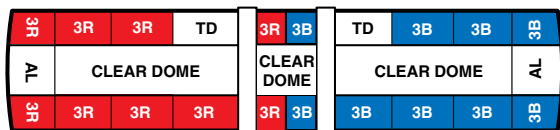

Features

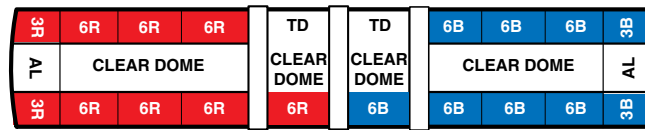

- > Front and Rear lightbar cutoff for total control.
- > Split-LED Option for the center bulk-head of the 48" models.
- > LED Alleys, LED Take Downs and LED Work lights are available in the 48", 54", 60" and 72" models.
- > LED Brake/Tail /Turn lights are available in the 48", 54", 60: and 72" models.
- > Six-head SignalMaster is available in the 48", 54", 60" and 72" models plus the control head is included.
- > Solar Panel option is available for the 48", 54", 60" and 72" models.
(Used to maintain battery voltage levels for dormant vehicles).

You can create a customized JetSolaris lightbar by using the online configurator at <http://www.fedsig.com/products/config/>
