

Update on Brackets for mounting ES100 speakers.

Federal Signal announces the following speaker bracket information:

- New model# ESB-IMP08R is now available. This new bracket replaces the older ESB-IMP08 model that we have sold for several years. The new model provides for easier installation of the ES100 speaker, and is necessary when a Federal Signal RUMBLER is also being installed. Both models will be available until supplies of the older ESB-IMP08 have been exhausted.
- New model# ESB-TAR11 is now available. This model is designed for mounting an ES100 speaker on the 2011 Ford Taurus.
- The newly redesigned 2011 Dodge Charger is starting to be utilized by many departments. For your information, our existing model# ESB-CRG07 is suitable for installing an ES100 speaker on 2007-2011MY Dodge Chargers.
- Two new models are available for mounting ES100 speakers on 2011 Dodge Ram 3500/4500/5500 chassis. Models ESB-DHDD11 and ESB-DHDP11 are designed for mounting ES100 speakers on the “driver-side” and “passenger-side” of these vehicles. Please note that these brackets can only be utilized if the Tow Hooks are NOT installed through the bumper.
