*Speaker bracket shown installed on existing Dodge bumper frame.*

## Dodge Chassis Speakers Now Available

Federal Signal is pleased to announce the introduction of a new speaker, the DS100. DS100 models are specifically designed for use on ambulances built on Dodge 3500 series chassis. This 100-watt speaker utilizes the durable Federal Signal neodymium speaker driver found in many of our popular speakers and combines it with bracketry specifically designed for the Dodge chassis. The speaker mounts directly into the fog lamp cut outs of the 2008 Dodge 3500 series chassis. Installation is simple and does not require cutting into the bumper. The result is a clean look to the front of the vehicle.

### Features

- 100-Watt speaker
- Driver and passenger side models
- Installation matches with existing fog lamp cut outs for clean installation
- Suitable for use in GSA KKK-A1822F compliant systems
- Features the dependable Federal Signal neodymium speaker driver

Model #	Description	2008 List Price (US\$)
