

CONDOR™ LED WINDSHIELD LIGHT

available in: 

> Features

- ABS mount with rounded corners fits under rearview mirror.
- Angle adjustment of LED module.
- Cigarette plug standard.
- Eight built-in, easy-to-select flash patterns.
- Available in red, blue, amber, and green.

Compact, Convenient, Affordable

The Condor™ LED windshield light provides effective auxiliary warning and is extremely affordable.

Designed specially to fit above or behind most rearview mirrors, the Condor LED windshield light is ideal for volunteers, in undercover vehicles and as auxiliary lighting in command cars.

The Condor features rounded corners, cigarette lighter plug, and suction cup mounting for easy installation. The adjustable LED light module allows users to direct light to the desired position.

Each unit has a self-contained flasher with eight easy-to-select patterns. Users simply access the micro switch located on back of the unit to scroll through pattern choices. No need to take the unit apart and no special tools are required.

Condor LED lights are available in a variety of colors including red, blue, amber, and green. In addition, all LED components are backed by a 5-year warranty from Federal Signal.

> How to Order

Select Model

- 350600-02** (1) Condor LED Windshield Light, amber (amber lens)
