- Five-year warranty

APPROVALS

- SAE J845 Class 1 (Amber, Blue, Red, White)
- CCR Title 13
- NFPA 1901 compliant
- IP69K

FS TECHNOLOGIES

Versatile Warning Beacon Built for a Variety of Applications

For those seeking a work truck beacon with versatile capabilities, turn to the Pro LED Beacon light. Available in both tall and short models, this beacon warning light comes in a variety of different colors including several dual-color models. Whether you are looking for an Amber beacon, Blue, Green, Red, White, or some combination of these colors, the Pro LED Beacon is an ideal choice. With (25) unique flash patterns, the Pro LED Beacon has the capabilities needed to serve as an effective warning light in countless industries and vehicle applications.

Federal Signal's Pro LED Beacon is exceptionally versatile thanks to the numerous industry-leading technologies incorporated into its design. It utilizes Solaris® LED reflector technology to provide 360 degrees of brilliant warning light and comes equipped with low power functionality. Thanks to FSLink™ syncing technology, it can even be paired with the other FSLink™ warning lights on your vehicle to present a synchronized warning light pattern.

The Pro LED Beacon is an excellent beacon for regulatory compliance and carries the following approvals:

- SAE J845 Class 1 (Amber, Blue, Red, White)
- CCR Title 13 (Amber, Blue, Red)

This beacon has the ability to serve as a valuable tool for safety and compliance in numerous industries including the towing industry, construction, utility/maintenance, snow removal, landscaping, and many others.

The Pro LED Beacon was designed to serve as a work truck beacon and was designed to stand up to the adverse conditions sometimes faced on the road or job site. The beacon is securely mounted with a 1-inch pipe mount and is IP69K rated against dust and water. This LED beacon can also be equipped with an optional branch guard for those seeking additional protection.
