

## Release of the Dual Color Corner LED Light Head 416900/416910

Federal Signal announces the release of the 416900/416910 Dual Color Corner LED light heads. The new corner LED light heads have 12 LEDs. Models 416900/416910 come with a built in flasher that easily connects to the light head with a weather proof connector.

The light heads are available in single colors and in dual colors. Dual color models come in a variety of color combinations and have the capability to flash one color or alternate between colors with the two available modes in each light head.

For ease of mounting, the 416900/416910 models come with two mounting options. All units come with a black bezel for surface mounting. Users also have the option of installing the light head in a head lamp assembly. The corner LED light heads are able to be mounted internally or external in a variety of vehicular applications to encompass the needs of its users.

### FEATURES

- Single-color models have 12 LEDs
- Two-color models have 6 LEDs of each color (12 total)
