FireRay LED Perimeter Lights

The FireRay LED perimeter lights offer a variety of lighting options and sizes with a unique new look that accommodates multiple mounting applications on fire apparatus, ambulances, work trucks, and police vehicles. The FireRay series includes warning lights, brake/tail/turn, arrow, back-up, and scene lights with an optional black or chrome bezel. Warning lights are available in standard 4x3, 6x4, 7x3 and 9x7 and scene lights are available in 6x4, 7x3 and 9x7. Models are available in single and split-color with the option of either a clear or colored lens. LED color options include Amber, Blue, Green, Red or White and lens color options include Amber, Blue, Red, Green or Clear.

Certified IP67

FireRay® LED perimeter lights are certified to meet IP67. The Ingress Protection Marking classifies and rates the degree of protection provided against dust and water intrusion. The first digit in IP ratings indicate the level of protection against solids and the second digit indicates the level of protection against liquids. IP67 certified means that the FireRay is dust tight allowing for no ingress of dust and can be submerged in up to one meter of water for 30 minutes.

Warning Lights

Warning light models include 13 selectable flash patterns and 4 flashing modes: full flash, left/right split flash, top/bottom split flash, and criss-cross split flash. Warning models include a steady burn pattern that can be hooked up to an external flasher and a low power feature that decreases the light output by 40%. Fifteen units can be synchronized to flash together or alternate.

FireRay Brake/Tail/Turn Application

Brake/tail/turn, back-up and arrow models are available in 6x4 models. Horizontal 4-up and 3-up castings are available and require no special die-cut to the body of the vehicle.

Optional Chrome or Black bezel
