

► SpectraLux® Rear Deck ILS | Interior Lighting System

FEATURES

- SpectraLux®, multicolor LED technology is configurable in combinations of Amber, Blue, Red, Green, or White
- Solaris® LED assemblies provide the highest optical efficiency
- ROC (Reliable Onboard Circuitry™) technology reduces potential failure points
- Compatible with FS Convergence Network sirens
- Rear Deck ILS models incorporate (10) reflectors
- (26) flash patterns
- With SpectraLux while in motion, rear models can flash in Red/Blue pattern then changes to Amber SignalMaster™ flash pattern
- SignalMaster can be configured to be 6 or 8- heads
- Left, right and center out SignalMaster™ patterns
- Five-year warranty

Warning and traffic clearing LED light built for first responders

SpectraLux® ILS Rear Deck provides advanced warning and directional lights for both undercover and highway police cars and fire command vehicles. This internal LED lighting system features Federal Signal's SpectraLux multicolor LED capability.

Stealthy appearance with eye-catching results

From inside the vehicle, the low-profile SpectraLux ILS Rear Deck blends into the rear of the vehicle. When illuminated, the Solaris® LED reflectors provide superior optical performance outside the vehicle. With SpectraLux technology, a single LED light source can change color combinations from Red, Amber, Blue, or Green while in operation. Rear models operate as a standard emergency warning light or Amber SignalMaster™ directional warning light.

Simple installation and programming

SpectraLux ILS Rear Deck models are equipped with the FS Convergence Network for simple "plug-n-play" installation and programming. These units are compatible with FS Convergence Network sirens such as the SmartSiren® Platinum.

SpectraLux ILS Rear Deck models are programmed with (26) built-in flash patterns and can remain in sync with other light head flash patterns or operate independently.

Select a popular configuration below or customize a configuration using our on-line configurator at <http://config.fedsig.com/lightbar/>

Ford Interceptor Sedan 2013+

Rear Deck Model

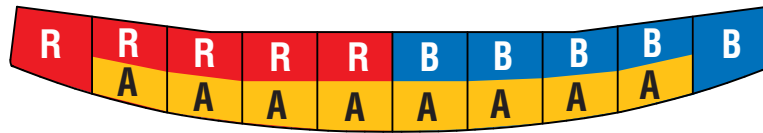

- SILSD-2646112 (1) 4" Red LED reflector,
- (4) 4" Red/Amber LED reflectors,
- (4) 4" Blue/Amber LED reflectors,
- (1) 4" Blue LED reflector, splitter

Dodge Charger 2011+ / Ford Fusion 2016+

Rear Deck Model

- SILSD-2644775 (1) 4" Red LED reflector,
- (4) 4" Red/Amber LED reflectors,
- (4) 4" Blue/Amber LED reflectors,
- (1) 4" Blue LED reflector, splitter

Rear Deck Models

(1) Red LED Reflector, (4) Red/Amber LED Reflectors, (4) Blue/Amber LED Reflectors, (1) Blue LED Reflector, splitter

Dodge Charger 2011+ / Ford Fusion 2016+	SILSD-2644775
Ford Interceptor Sedan 2013+	SILSD-2646112

Specifications

Voltage	12.8VDC
Amp Draw (total)	10 A
Operating temp	-30° C to +65° C
