

FSX Visor Lights are now available

Federal Signal's new FSX visor light provides clear identification and temporary marking for undercover and unmarked vehicles. The easy to use visor light simply slides over the vehicle's existing sun visor and plugs into the cigarette plug. When not in use, the visor light is hidden when the vehicle's visor is folded, or can slide off of the visor and be kept inside the glove box.

FEATURES

- Provides high visibility and temporary vehicle marking
- Light output dimming control to avoid flashback
- "POLICE" and "POLICIA" models
- Slides over existing sun-visor and plugs into the cigarette plug
- Detachable adapter allows the user to disconnect the FSX visor light from the cigarette plug cord when the sign is not in use
- Easy removal and storage
- UV stable and shatterproof
- Five-year warranty
