- Patented technology
- Five-year warranty

APPROVALS

- Triple K Spec (LEDTCL97C-W flash pattern 7)

Alert Drivers Faster

Federal Signal's LED Traffic Clearing Light (TCL) is designed to bring attention to drivers as a fire apparatus or ambulance is approaching from the rear of their vehicle. The LED TCL's optics and unique sequence of flash patterns direct light to the driver's rear-view mirror warning them of the emergency vehicle.

LED TCL and perimeter warning lights work together to help warn roadway traffic. While perimeter lights provide 360-degree of warning light around the emergency vehicle, the LED TCL produces 250+ feet of directional light to the front of the emergency vehicle.

LED TCL Models

LED TCL is available in 6x4 and 9x7 standard models. Models are available in Amber, Blue, Green, Red, and White LEDs. The LED TCL 6x4 is sold in pairs and is available as an option for Federal Signal's Navigator® lightbar.

HOW TO ORDER

Specify Model

LEDTCL64A-A	LED Traffic Clearing Light, 6x4 (pair), Amber lens, Amber LED
