

Safety Message to Installers of Warning Light Equipment

⚠ WARNING

People’s lives depend on your proper installation and servicing of Federal Signal products. It is important to read and follow all instructions shipped with this product and the original product. Listed below are some other important safety instructions and precautions you should follow:

- To properly install a light assembly, you must have a good understanding of automotive electrical procedures and systems, along with proficiency in the installation and use of safety warning equipment.
- When drilling into a vehicle structure, be sure that both sides of the surface are clear of anything that could be damaged.
- For proper electrical connections, and additional precautions and information, refer to the instructions packed with the light system.
- You should frequently inspect the light assembly to ensure that it is operating properly and that it is securely attached to the vehicle.
- File these instructions in a safe place and refer to them when maintaining and/or reinstalling the product.

Failure to follow all safety precautions and instructions may result in property damage, serious injury, or death.

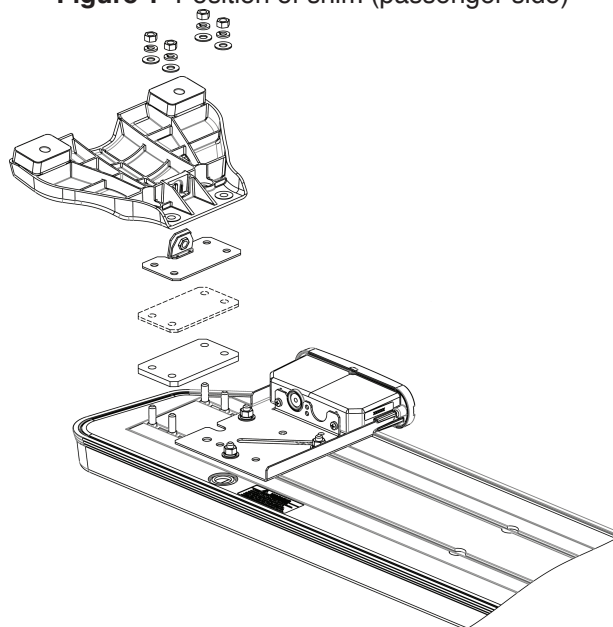

Table 1 Kit Contents

Qty	Description	Part Number
2	1/4-inch Shim	865300716
2	1/8-inch Shim	865303079
8	5/16 x 1-1/4-inch Carriage Bolt, Stainless Steel	7004025-20

Installing the Shims

The roof ribs of some vehicles (for example, the Ford Police Interceptor Utility) may interfere with the 795H-EXT-D or 795H-EXT-P when mounted on an Integrity or Legend light bar. The shims go between the light bar and the mounting feet to create the necessary clearance. Install one 1/4-inch shim or a 1/4-inch and a 1/8-inch shim (FPIU 2020+) per side. With both shims, use the carriage bolts supplied in this kit. See Figure 1.

Figure 1 Position of shim (passenger side)

Getting Technical Support

For technical support and service, please contact:

Federal Signal Corporation
Service Department
Public Safety Systems
Phone: 1-800-433-9132
Email: empserviceinfo@fedsig.com

Getting Repair Service

The Federal Signal factory provides technical assistance with any problems that cannot be handled locally. Any product returned to Federal Signal for service, inspection, or repair must be accompanied by a Return Material Authorization (RMA). Obtain a RMA from a local Distributor or Manufacturer's Representative. Provide a brief explanation of the service requested, or the nature of the malfunction.

Address all communications and shipments to the following:

Federal Signal Corporation
Service Department
2645 Federal Signal Dr.
University Park, IL 60484-3167

Limited Warranty

This product is subject to and covered by a limited warranty, a copy of which can be found at www.fedsig.com/SSG-Warranty. A copy of this limited warranty can also be obtained by written request to Federal Signal Corporation, 2645 Federal Signal Drive, University Park, IL 60484, email to info@fedsig.com or call +1 708-534-3400.

This limited warranty is in lieu of all other warranties, express or implied, contractual or statutory, including, but not limited to the warranty of merchantability, warranty of fitness for a particular purpose and any warranty against failure of its essential purpose.
