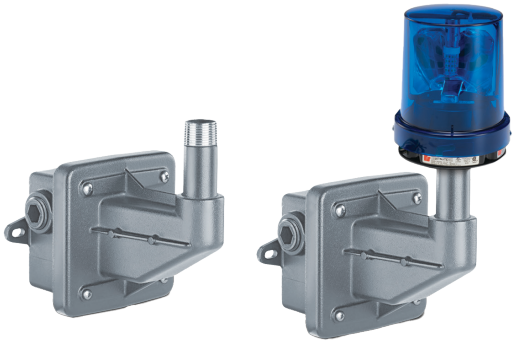
FEDERAL SIGNAL

Model LSWB

Wall Mounting Kits for 4X, Safe Area Applications



Model LSWB wall mounting kit is designed for use with Federal Signal's Type 4X certified, pipe mount warning lights. This kit features a 1/2-inch NPT pipe connection and is supplied with a surface mount weatherproof backbox.

Model LSWB can be wired through either the 1/2-inch or 3/4-inch conduit openings located on the weatherproof backbox. Additional bushings are available to purchase for 3/4-inch and 1-inch fixture mounting (K2881358A). The terminal block kit (KIT-WBTB) enables users to easily terminate wires from the beacon within the backbox of the LSWB bracket.

Model LSWB is ideal for use in 4X, IP66, and indoor or outdoor applications. It is compatible with the following Federal Signal models: 225, 121ALED, 121SLED, 371LED, FB24ST, FB24STHI, FB24STHI-CN, FB2LED, FB2PST, and FB2PST-I.
