

## ▶ Littlite® | Gooseneck Lamps

### FEATURES

- Flexible, "goose-neck" task lights that can be easily aimed exactly where you need it
- LED or halogen models
- Available with On/Off switch or rheostat "dimmer" control
- 6", 12" and 18" lengths
- Includes a 24" wire length for installation
- Five-year warranty on LED elements, and limited lifetime warranty on mechanical components

Littlite® sleek, low-profile gooseneck lamps efficiently produce light in a concentrated area and can easily be aimed exactly where you need it. Made of sturdy metal and finished in durable black, baked enamel; all Littlite lamps and accessories are designed to meet the most demanding needs. The stylish hood dissipates heat and extends surface life. The units are equipped with a permanently attached gooseneck that extends from either the end or top of the chassis and are controlled by your choice of rheostat or an on/off switch.

LED Littlite lamps for console lighting are composed of Red and White LEDs, which eliminate the need for a red filter. A Blue and UV LED options are also available. The UV LED model includes a UV light mode perfect for checking security watermarks on currency, driver licenses, passports, and anything else that utilizes UV security marks. Amperage draw has also been reduced to only 100 mA, providing a cooler, longer lasting operation.

Halogen Littlite lamps emit a crisp, bright White light in a tightly controlled pattern for use in any task involving accurate, close or detailed work. A colored Red filter easily slides into place over the lamp for night use within any police, fire, ambulance, emergency or utility vehicle.

Littlite gooseneck lamps include 24 inches of automotive wiring for easy installation in any 12-volt system.

**Specify model**

**LED LITTLITE MODELS**

**Neck extends from top of chassis, horizontal mount**

- LF12TSB-LED 12", On/Off switch control, wired base
- LF12TS-LED 12", On/Off switch control
- LF18TSB-LED 18", On/Off switch control, wired base
- LF18TSB-LED-BLUE 18", On/Off switch control, wired base, Blue
- LF18TS-LED 18", On/Off switch control

**Neck extends from end of chassis, vertical mount**

- LF12ES-LED 12", On/Off switch control
- LF18ES-LED 18", On/Off switch control
- LF18ER-LED-UV 18", Rheostat control, UV/White/Red light modes

**HALOGEN LITTLITE MODELS**

**Neck extends from end of chassis, vertical mount**

- LF12ER 12", Rheostat control
- LF12ERB 12", Rheostat control, wired base
- LF12ESB 12", On/Off switch control, wired base
- LF18ERB 18", Rheostat control, wired base

**Neck extends from top of chassis, horizontal mount**

- LF6MOTO 6", Switch control, wired base, motorcycle application
- LF12TR 12" Rheostat control
- LF12TRB 12", Rheostat control, wired base
- LF18TR 18", Rheostat control
- LF18TRB 18", Rheostat control, wired base
- LF18TS 18", On/Off switch control

**Specifications**

Operating Voltage	12.8 V
Halogen Lamp Type	Bi-pin halogen, 5 W
Amp Draw	0.5 A nominal (halogen) 0.1 A nominal (LED)

**Physical Specifications**

	Classic	Gooseneck
Length	3.0 in (7.62 CM)	6 in (15.2 cm)
Width	1.0 in (2.54 CM)	12 in (30.5 cm)
Height	0.7 in (1.78 cm)	18 in (45.7 cm)

**Ship Weight**

1.0 lbs (0.5 kg)

Multiple LED models available.

LF18ER-LED-UV Includes a UV light mode perfect for checking security watermarks on currency, driver licenses, passports, and anything else that utilizes UV security marks.
