ADDITIONAL INFORMATION

Corner LED Lights

- Federal Signal's "CLED" and "416200" styles of LED corner lights are both suitable for installation on the 2011 Dodge Charger.

SOLARIS ILS Interior Lighting Systems

- Our existing 10-head "ILSFF-xxxxx" models that are used on the 2010 Charger will NOT fit on the 2011 Charger. However, our existing 10-head, Rear Deck "ILSFD-xxxxx" models are suitable for both the 2010 and 2011 Charger.
- Federal Signal will soon be announcing the details on two new styles of our Solaris ILS product line that will be suitable for 2011 Dodge Charger applications. There will be an 8-head, "Split" ILS for the front headliner, and there will be a 4-head "Passenger-side-only" version. Federal Signal will publish another Marketing Update with details on these items soon.

Warning Lights in fog lamp position

- Federal Signal's #380100 series of round LED lightheads that are intended for installation in the fog lamp position on the 2010 Charger, will NOT fit in this position on the 2011 Charger. Instead, any of Federal Signal's IMPAXX or Viper EXT warning lights can be mounted directly on the panel in the fog lamp location without the need for any special brackets.
