

Federal Signal announces the release of the Navigator® Online Configurator.

Steps to configure a lightbar in the Online Configurator:

- Go to: <http://config.fedsig.com/lightbar/>
- At the main menu, select which lightbar you want and hit "Configure".
- In the column on the left, specify lightbar length, lightbar style, dome colors, bulkhead color, mount type, and vehicle type
- Click on each position in the lightbar diagram shown to select your options.
- If you want to modify a position, simply click on the location again and re-select the option.
- As you fill in the lightbar, the system will calculate the list price (in US dollars) for your particular configuration.
- Once you've completed your lightbar, you can select to print, save or email the configuration as a PDF file.

To order your Navigator lightbar, contact your local Federal Signal sales representative, contact Federal Signal direct at 1-800-682-8022 or go to <http://config.fedsig.com/lightbar/>.
