Transition to Impaxx 6 Series B

For enhanced product quality, the Impaxx 6 product line will be transitioning from a Series A to a Series B starting the week of August 25, 2014. This change will affect all Impaxx 600, 602, 603, 604, 620, 623, 630, and 633 models. It will also impact Valor and Vision SLR lightbars with the HotFoot option.

The most notable change to the product is the removal of the metal housing from the back of the light and the addition of potting compound.

Existing Series A IPX600 with metal housing

New Series B IPX600 with new lens design and potting compound

The Series B models will operate the same as the current IPX6 models and all existing IPX6 brackets will work.

The Impaxx 600 line will be moving to new model numbers:
