WRX	2012	HKB-LPCHGR11	47.0"	
<b>International</b>				
Durastar/4300 cab	2002-16	HKB-FHD7	65.75"	

All Federal Signal light bars may be permanent or hook-on mounted. When using a hook-on mount, a separate hook kit is required for the make, model and year of your vehicle. Use the hook kit reference guide to find your vehicle's appropriate hook kit. Measurements for the roof width are determined by the style of the vehicle. These measurements may help you in choosing the light bar length best suited for you vehicle.

### Transfer of light bars from one vehicle to another

From time to time, departments will remove a light bar from an older vehicle and re-install it on a newer vehicle. Before performing this kind of transition, be sure to contact our Service Department to ensure that you not only have the proper hook kit, but that you also have the latest design light bar mount foot. Mounting foot designs continuously improve over time, and it is recommended that you utilize the most current mount foot design when re-installing an older light bar on a newer vehicle.

### Note

The hook kit reference guide is updated on an ongoing basis as information becomes available. Please check the hook kit reference guide on-line at [www.fedsig.com](http://www.fedsig.com) for up-to-date vehicle and hook kit listings. For older vehicle make and model year hook kit offerings, please contact Customer Support at (800) 264-3578.

For the most up-to-date hook mount information, contact Customer Support at 800-264-3578.
