

Advanced Off-Axis SpectraLux® ILS Low-Profile is Now Available for the Dodge Ram 2019 – 2020

The Advanced Off-Axis SpectraLux® ILS low-profile is now available for the 5th Generation Dodge Ram 2019 – 2020. The smaller and tighter fit of the SpectraLux ILS low-profile to the front headliner offers the same advanced warning, takedown, and flood lighting capabilities as a full-size light bar. This interior lighting system utilizes offset Solaris reflectors that provide more light output at the critical intersection angles to the front and sides of the vehicle. Split front, passenger side, and driver side models are available.

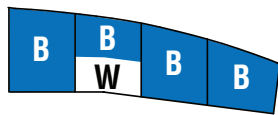

HOW TO ORDER

Choose from one of the popular Dodge Ram models below or visit our online configurator to configure your own custom SpectraLux ILS low-profile.

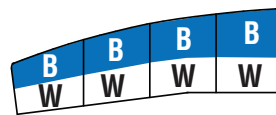

| Model # | Description | 2020 List Price US\$ |
