## Introducing the NEW StreamLine® Low Profile Multicolor LED Light

Introducing our NEW StreamLine® Low Profile Multicolor LED Light!

Model LP22LED RGB is a steady multicolor LED light with an opaque lens ideal for applications requiring low profile, proximity signaling. This model is equipped with an RGB LED that allows you to select 1 of 7 color options (amber, blue, green, magenta, red, white, yellow) within the same unit.

LP22LED RGB offers a self-extinguishing polycarbonate housing that protects against vibrations, dust, and atmospheric elements. Mounting options include surface, panel, or 1/2" NPT through an integrated pipe mount.

### Product features include:

- Available in 12-24VAC/DC and 90-240VAC
- ½" NPT, surface, or panel mount
- Steady Light
- 7 programmable color options (amber, blue, green, magenta, red, white, yellow)
- Low profile – only 2.71" tall x 2.99" diameter
- IP65, NEMA Type 4X
- UL and cUL Listed; CE Compliant
