## Obsolete Product Notice:

### 121A & 121S Vitalite® Rotating Warning Lights

Please note that Models 121A and 121S Vitalite® Incandescent Rotating Warning Lights have been discontinued due to an early end of life on the incandescent bulb. We have limited stock on hand. Please reference the chart below on the obsolescence status of each model and replacement part. A direct LED replacement for the 121S 120VAC model is currently undergoing UL/cUL testing and is scheduled to launch this April.

Model	Obsolescence Status
<b>121A-024*</b>	<b>QTY 345 24V bulbs remaining for use in all colors as of 3/11/2020; once depleted models will be obsolete</b>

121S-120C	QTY 0 finished units on-hand as of 3/11/2020
121S-120G	QTY 0 finished units on-hand as of 3/11/2020
121S-120R	QTY 78 finished units on-hand as of 3/11/2020
<b>Replacement Parts</b>	
K8107236A	Obsolete effective immediately (no open orders)
K8107251A	Obsolete effective immediately; all open orders in-house as of today will be filled^
K8107181A	QTY 13 on-hand as of 3/11/2020; once depleted model will be obsolete
K8107181A-4	Obsolete effective immediately (no open orders)
K8107181A-25	Obsolete effective immediately (no open orders)

\*All open K8107251A orders as of 3/11/2020 will be filled. The large OEM open orders will be filled first, and then as soon as we receive the new LED bulbs in April, the remainder of the replacement part orders will be filled by a TPV (temporary product variation) where we will send customers the new LED bulb in place of the old incandescent ones. The new LED bulb is a direct drop in replacement.

## Recommended Alternatives:

For the 121S 120VAC model, the new LED version is coming this April!

Currently there is no direct replacement for the 121A 24VDC model. A recommended alternative is:

<p><a href="#">SLM100 StreamLine® Modular Multifunctional LED Beacon</a></p> 	<ul style="list-style-type: none"> <li>- Compatible with 12-24VDC or 120-240VAC</li> <li>- Steady, flashing or <b>rotating</b> light effects</li> <li>- 50,000-hour LED</li> <li>- Five colors: Amber, Blue, Clear, Green or Red</li> <li>- Seven mounting base options including <b>pipe</b> and <b>surface</b></li> <li>- Type 4X, IP66 enclosure; IP69K compliant with applicable bases</li> <li>- CE Certified</li> <li>- UL and cUL Listed</li> </ul>
