Recommended Alternative:

[LSH Litestak® Piezoelectric Horn](#)

- Available in 24VDC and 120VAC
- Adjustable volume
- Produces 75-77 dBA @ 10' (85-87 dBA @ 1m)
- Indoor use only
- Type 1 enclosure
- CSA Certified
- UL Listed

Litestak® LSH Horn is a piezoelectric unit that employs a ceramic element which expands or bends when voltage is applied, generating a single tone. Model LSH can be used as a stand-alone audible device (with the LSB pipe/surface mount base or LSBS surface mount base) or combined with Federal Signal’s Litestak light modules to create a combination audible/visual signal.

Model	Voltage	Description
LSH-024	24VDC	Litestak piezoelectric horn sound module, 24VDC
LSH-120	120VAC	Litestak piezoelectric horn sound module, 120VAC
