

ICON™ SERIES LED WORK LIGHTS

INTRODUCING NEW ICON SERIES LED WORK LIGHTS

Federal Signal is pleased to announce the addition of the ICON™ Series LED work lights to our area warning light product line. These lights provide effective illumination wherever work takes you. They are available in both round and square housings, as well as in a variety of brightnesses, ranging from 1100 to 2700 lumens.

Service truck work lights are expected to perform regardless of weather conditions, and the ICON Series utility truck work lights deliver. They are mounted using stainless steel U-brackets and are IP67 rated against dust and water, meaning that these lights are prepared to work when you do, rain or shine. The ICON Series LED work lights also come with a three-year warranty.

Durability and brightness make the ICON Series LED truck work light an excellent choice for a wide variety of industries. These lights would prove a valuable addition to tow trucks, construction vehicles, service trucks, or on any work vehicle operating in low light conditions. Common industry applications include towing, field service, utility/ maintenance, and countless others.
