

Federal Signal is discontinuing the "CLED" family of corner LED lights.

This announcement affects all model numbers starting with CLED2, CLED4, and CLED6, as well as flasher model 501903.

### Timing

New orders for the discontinued models will no longer be accepted after May 31, 2013. Any new orders received must be for shipment prior to June 30, 2013.

### Recommended Alternatives

Federal Signal's "416200" family of **In-Line Corner LEDs** is the recommended substitute for the discontinued models. These systems use the latest generation of LEDs for bright warning and enhanced reliability.
