

Federal Signal announces changes to Opticom product offering

Federal Signal has re-designed the housing for our exterior-mount version of the Opticom 795 emitter. As a result of this design change, several models are being discontinued.

Timing:

New orders for the discontinued models listed below will no longer be accepted after November 30, 2013. Any new orders received must be for shipment prior to December 30, 2013.
