

## ILSPF style of SOLARIS® ILS to be discontinued

In our continuing efforts to stream-line our product offering and improve efficiencies, Federal Signal is discontinuing the ILSPF style of Solaris ILS interior warning light. The ILSPF is the 4-head, "passenger-side only" style of our Solaris ILS product family.

The direct substitute for the ILSPF models is our SILSP version of SpectraLux ILS. SILSP models are also 4-head, "passenger-side only", and feature our SpectraLux multi-color capability.

Models being discontinued	Recommended	Description of recommended substitute
ILSPF	SILSP	SpectraLux ILS – 4-head, "passenger-side only"

The SILSP version of our SpectraLux ILS can be configured using the Online Configurator on our website at <http://config.fedsig.com/lightbar/> and is available for the following vehicles:

- Ford Police Interceptor Sedan and Utility
- Ford F-150, Expedition, and Crown Victoria
- Chevy Tahoe, Impala, and Caprice
- Dodge Charger

### Timing

New orders for the discontinued ILSPF will no longer be accepted after April 30, 2014. Any new orders received must be for shipment prior to May 31, 2014.
