

## Additional "Switch-Over" kits for Solaris ILS and SpectraLux ILS Available

Federal Signal's 8-head Front Split ILS models (ILSSF and SILSS) and 10-head Rear Deck models (ILSFD and SILSD) are sold with "vehicle-specific" mounts/bracket/shrouds. However, the LED boards used in the front splits are common with other front splits and the rear decks are common with other rear decks and can be transferred from one "vehicle-specific" shroud assembly to another.

Federal Signal announces the availability of two new ILS kits that contain only the shrouds/mounts/brackets/hardware for certain popular police vehicles. By following the installation instructions, and utilizing these kits, an installer can "switch over" the LED boards from an existing ILSSF, SILSS, ILSFD, or SILSD model and move them to a different "vehicle-specific" ILS assembly.

### New Models:

Model #	Description	2015 List Price US\$
ILSKIT-05	ILS "switch over" kit, includes the shrouds/brackets/hardware for installing LED boards from a separate ILSSF or SILSS into a MY2015 Chevy Tahoe	\$ 199.00
