

Federal Signal announces the new MicroPulse™ Ultra Dual Color

Federal Signal has released the new MicroPulse™ Ultra 6 Dual Color lighthead. With a depth of only 9.4mm, the MicroPulse Ultra Dual Color can be mounted on any flat surface of a vehicle or used with existing MicroPulse brackets. Eighteen flash patterns create versatility that allows it to flash as a solid or dual color lighthead. MicroPulse Ultra Dual Color lightheads can be synchronized to flash simultaneously or alternately.

- Super low profile design offers wide range of mounting options
- Superior warning with (12) high power LEDs
- (18) selectable flash patterns
- Single/multi-unit synchronization
- Includes black bezel and gasket
- Optional bezels available in chrome or white
- SAE J595 Class 1, SAE J845 Class 1, CA Title 13 Class B
- Three-year LED warranty

MicroPulse Ultra is only 0.35" thick
