

Federal Signal announces the release of the SpectraLux™ ILS Low Profile Online Configurator

STEPS TO CONFIGURE A SPECTRALUX™ ILS LOW PROFILE IN THE ONLINE CONFIGURATOR:

- Go to: <http://config.fedsig.com/lightbar>
- At the main menu, select SpectraLux ILS Low Profile and hit "Configure."
- In the column on the left, specify vehicle type, model and controller.
- Click on a position in the lightbar diagram shown to view and select your options for each position listed.
- As you fill in the lightbar, the system will calculate the list price (in US dollars) for your particular configuration.
- Once you've completed your lightbar, you can select to print, save, or email the configuration as a PDF file.

To order your SpectraLux™ ILS Low Profile, contact your local Federal Signal sales representative, contact Federal Signal direct at 1-800-682-8022, or go to <http://config.fedsig.com/lightbar>.
