

SpectraLux ILS Low Profile now available for the 2015-2016MY Ford F-150

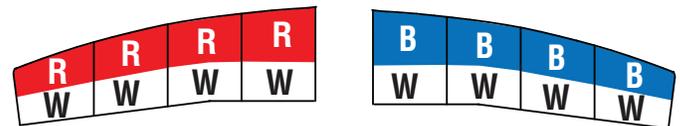

The SpectraLux ILS low profile, ideal for undercover and highway law enforcement vehicle applications, is now available for the Ford F-150. The smaller and tighter fit of the SpectraLux ILS low profile to the front headliner offers the same advanced warning, takedown, and flood lighting capabilities as a full-size lightbar, and the vehicle-specific shrouds prevent flash-back. This interior lighting system is available in split front, passenger side, and driver side models.
