

Federal Signal Releases New 4x3 QuadraFlare® Traditional Perimeter Light and DOT Model

Traditional 4x3 QuadraFlare shown with optional Chrome bezel

DOT 4x3 QuadraFlare

Federal Signal announces the release of two new additions to our QuadraFlare family of LED warning lights. The new 4x3 QuadraFlare traditional perimeter light and DOT models are designed with a unique reflector technology for superior off-axis warning and are backed by a five-year LED warranty.

The traditional 4x3 QuadraFlare exterior light comes with a built-in flasher featuring a variety of selectable patterns and can be used on a variety of vehicles including municipal, utility, tow and recovery, ambulances, command vehicles and brush trucks. Models are available with an optional chrome-plated trim bezel for a traditional finish.

The 4x3 QuadraFlare DOT models are designed to fit in a mounting box and have a unique lens featuring a slight vertical curve to allow the units to “stack” into a DOT box leaving minimal space for moisture or dirt creating a clean look. Brake/Tail/Turn, and Back-up light models are also available.

FEATURES

QuadraFlare® 4x3 Traditional
