

Older-design, high-profile SILSS and SILSP styles of SpectraLux™ ILS to be discontinued

In our continuing efforts to stream-line our product offering and improve efficiencies, Federal Signal is discontinuing the SILSS and SILSP styles of SpectraLux™ ILS interior warning lights. This change affects all model numbers that begin with SILSS and SILSP.

As a replacement for the older-design, high-profile SILSS and SILSP versions, we recommend our **new SIFZ and SIFM styles of Low-Profile SpectraLux ILS**.

Discontinued Model	Recommended Substitute
SILSS – 8-head, Front Split ILS	SIFZS – 8-head, off-axis, Front Split, SpectraLux ILS Low-Profile
	SIFMS – 8-head, center-focused, Front Split, SpectraLux ILS Low-Profile
SILSP – 4-head, Passenger-side only Front ILS	SIFZP – 4-head, off-axis, passenger-side only, SpectraLux ILS Low-Profile
	SIFMP – 4-head, center-focused, passenger-side only, SpectraLux ILS Low-Profile

TIMING

New orders for the discontinued SILSS and SILSP models will no longer be accepted after July 31, 2017. Any new orders received must be for shipment prior to August 31, 2017.
