

## Advanced Off-Axis SpectraLux™ ILS Low Profile is Now Available for the Chevrolet Colorado 2016+

The Advanced Off-Axis SpectraLux™ ILS low profile is now available for the Chevrolet Colorado 2016+. The smaller and tighter fit of the SpectraLux ILS low profile to the front headliner offers the same advanced warning, take down, and flood lighting capabilities as a full-size lightbar, and the vehicle-specific shrouds prevent flash-back. This interior lighting system utilizes cantered Solaris® reflectors that provide more light output at the critical intersection angles to the front and the sides of the vehicle, and it is available in split-front, passenger side, and driver side models.

### HOW TO ORDER

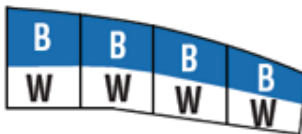

Choose from one of the popular models below or visit our [on-line configurator](#) to configure your own custom SpectraLux™ ILS Low Profile.
