## Center Focused SpectraLux® ILS low-profile is now available for the 2018 Ford Expedition

The Center Focused SpectraLux® ILS low-profile is now available for the 2018 Ford Expedition. The smaller and tighter fit of the SpectraLux ILS low-profile to the front headliner offers the same advanced warning, takedown, and flood lighting capabilities as a full-size light bar, and the vehicle-specific shrouds prevent flash-back. This interior lighting system utilizes forward facing Solaris® reflectors that concentrate all the light output to the front of the vehicle, and it is available in split-front, passenger side, and driver side models.

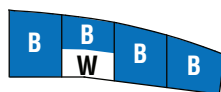

### HOW TO ORDER

Choose from one of the popular models below or visit our online configurator to configure your own custom SpectraLux ILS low-profile.
