Federal Signal Releases New UV LED Littlite® Model

Federal Signal announces the release of the new UV (Ultra-Violet) LED Littlite® model. The low-profile UV LED Littlite efficiently produces light in a concentrated area and can easily be aimed exactly where you need it. UV LED Littlite model has three modes allowing you to switch between Red, White and UV light. The White and Red lights are ideal for console lighting while the UV light mode makes it perfect for checking security watermarks on currency, driver licenses, passports, and anything else that utilizes UV security marks.

FEATURES

- LED task light
- Flexible, 18" "goose-neck" that can be easily aimed exactly where you need it
- Rheostat control allows for light to switch from three different light modes - UV, White or Red
- Five-year warranty
