Center Focused SpectraLux® ILS low-profile is now available for the 2019 Chevrolet Silverado

The Center Focused SpectraLux® ILS low-profile is now available for the 2019 Chevrolet Silverado. The smaller and tighter fit of the SpectraLux ILS low-profile to the front headliner offers the same advanced warning, takedown, and flood lighting capabilities as a full-size light bar. This interior lighting system utilizes forward facing Solaris® reflectors that concentrate all the light output to the front of the vehicle, and it is available in split-front, passenger side, and driver side models.

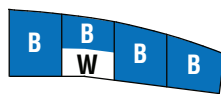

HOW TO ORDER

Choose from one of the popular Chevrolet Silverado models below or visit our online configurator to configure your own custom SpectraLux ILS low-profile.
