

## Federal Signal announces the discontinuation of several FS Flasher Models

In our continuing efforts to stream-line our product offering and improve efficiencies, Federal Signal is discontinuing several solid-state flasher models listed below.

### DISCONTINUED MODELS

- 650201
- 650202
- 650205
- 650301

These flasher models were typically used with halogen and LED warning lights that did not incorporate an integrated flasher circuit. Federal Signal's most popular LED warning lights now include an integrated flasher circuit so external flasher models like the ones being discontinued are no longer needed.

### TIMING

Going forward, the affected models will only be available while supplies last.
