New Features Added to the Pathfinder® Configuration Software

Version 2.2.0.1 of the Pathfinder® Configuration Software is available today to download. This new version replaces the current version 2.2.0.0. The following new features have been added to the software:

• Modified 2020 Ford Interceptor Utility CAN Signals

    • Steering wheel button 1 & 2 flipped; Brake signal improved; Key in/Key out signal added

• Log file extraction added (help > extract log files)

• Ability to open configuration notes on file load

• Bug fix to remove remote activations after an input is deleted

• PF100 models added to hardware selection page
