

Federal Signal Releases New Pathfinder® Lights and Siren Controller Videos

Can't make it to the movies? Check out Federal Signal's newly released Pathfinder videos available on www.fedsig.com/pathfinder or [YouTube](https://www.youtube.com) -- *Don't forget to click **Subscribe** to our YouTube channel!*

Pathfinder Overview

By reducing the steps in lights and siren activation, the Pathfinder® vehicle response system frees officers to fully focus on the task at hand.

Rumbler and Dual-Tone

Pathfinder comes through with built-in Rumbler traffic clearing capability or Dual-Tone integration.

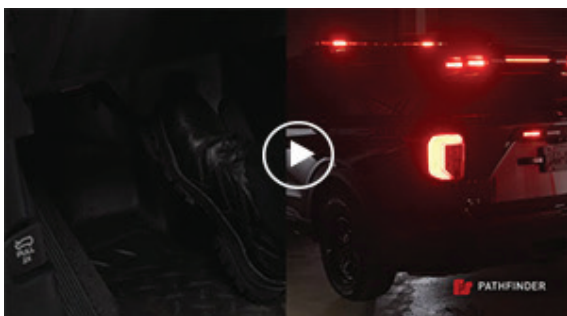

Public Address

Pathfinder projects a full, clear public address through Federal Signal's Rumbler integrated capability.

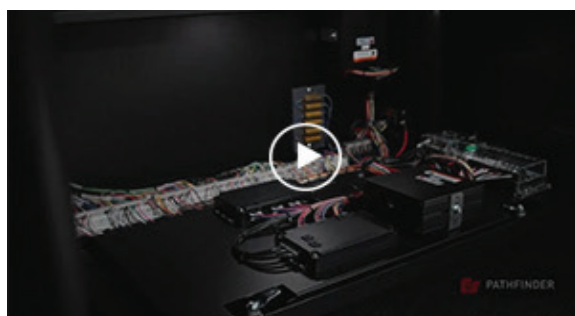

Voice Messages

Select from a library of standard pre-recorded digital voice messages or optional custom messages to broadcast alerts.

OBD Integration

Pathfinder works with your police car's OBD system allowing officers to focus on the task at hand.

Power Distribution & Expansion Modules

Simplify installation and offer a wide range of vehicle enhancements and control with the Pathfinder power distribution or expansion modules.
