Three-Button and Six-Button Controllers are Discontinued

Federal Signal is discontinuing the Three- and Six-button controllers. The suggested alternative is the new Four, Six, and Nine-button Convergence Network Controllers.

Item #	Description
660300SSG	Three-button for Legend
660000	Six-button Button for Legend
Z8623133A-NAV	Six-button for Navigator
Z8623133A-VAL	Six-button for Valor, Integrity, CN SignalMaster, ILS

TIMING

New orders for these models will no longer be accepted after 10/21/2020. All stock convergence light bars have been transitioned to the new programmable serial controllers.

SUGGESTED ALTERNATIVES

Four, Six, and Nine-button Convergence Network Controllers.

Model	Description
CNTRLR-4B	Four-button Convergence Network Controller
CNTRLR-6B	Six-button Convergence Network Controller
CNTRLR-9B	Nine-button Convergence Network Controller
