

Federal Signal Introduces FSJoin™ Technology

Federal Signal is excited to announce a new exclusive technology, FSJoin™. FSJoin is a programming compatibility feature of Federal Signal's light bars and exterior/interior warning lights that work in conjunction with the Pathfinder® light/siren controller.

This technology enables the synchronization of functions, operation, and flash patterns of individual light heads from multiple warning devices in order to create a unified vehicle solution when using the Pathfinder light/siren controller.

**FSJoin™**

FEATURES

- All FSJoin compatible products can be programmed through the FS Convergence Network configuration software
- Allows for firmware updates without additional programming devices or opening the product
- Easy synchronization of light bar with Pathfinder controlled warning lights
- Simplified programming and full customization of light bar patterns and position color activation
