## Federal Signal Introduces Exterior and Interior Warning Lights Featuring FSJoin™

Federal Signal is excited to announce that multiple exterior and interior warning lights feature FSJoin™ technology. FSJoin is a programming compatibility feature of Federal Signal's light bars and exterior/interior warning lights that work in conjunction with the Pathfinder® light/siren controller

The combination of FSJoin warning lights and the Pathfinder siren allows the Pathfinder to control lights around the vehicle by utilizing flash patterns in the siren, syncing/alternating light heads, and dimming light heads.

Exterior and interior warning lights that feature FSJoin technology include:

- MicroPulse® Ultra (MPS31U, MPS32U, MPS61U, MPS62U, MPS63U, MPS121U, MPS122U, MPS123U)
- MicroPulse Ultra Steady Burn (MPS620Ux and MPS1220UX)
- MicroPulse Wide Angle Steady Burn (MPSW9X)
- MicroPulse C Series Steady Burn (MPSC2X)
- 416900/416910 Steady Burn (416900XZ)
- 416300 Series Steady Burn (416300X)
- XStream™\*

*\*Models must be put in steady burn flash pattern*

### FEATURES

- FSJoin compatible warning lights utilize the patterns of the Pathfinder siren (sold separately)
- All FSJoin compatible products can be programmed through the [Convergence Network Configuration Software](#)
- Easy synchronization of light bar to Pathfinder controlled warning lights

### TIMING

All FSJoin compatible exterior and interior lights listed above are available to order today.
