## New MicroPulse® Ultra Flash Pattern Emulator is available on [fedsig.com](https://www.fedsig.com)

Federal Signal is excited to announce the new MicroPulse® Ultra flash pattern emulator. This new platform allows you to view each flash pattern for the single, dual, and tri-color MicroPulse Ultra 6 light head.

### INSTRUCTIONS

#### How to Use the MicroPulse Ultra Flash Pattern Emulator

- Click [here](#) or visit <https://www.fedsig.com/resources> and click "Police, Fire, and Heavy Duty Flash Patterns"
- Click **MicroPulse Ultra**
- Select the mode and number of colors that you would like to view at the top, right-hand side of the page
- Use the arrows to move between patterns or click on a number to view that pattern
  - Flash pattern names are displayed above each selected flash pattern number
  - SAE J595/NFPA 1901/Triple-K/R65/CCR T13 complaint patterns are noted in the flash pattern name
- This application does not work with Microsoft Internet Explorer or Microsoft Edge. Please use a stable version of current browsers such as Google Chrome, Firefox, Safari, etc.
