New Shroud Kits for MicroPulse® Wide Angle 9 Light Heads and Under-Mirror Brackets

Installed MPSMW9-SHD

MPSMW9-SHD Kit and Hardware

A shroud kit for use with MicroPulse® Wide Angle 9 light heads is now available as an optional accessory. This kit works in conjunction with our under-mirror brackets to reduce potential flashback into the vehicle's cockpit. The shroud kits can be added to already-installed mirror brackets without removal of the mirror or cutting/splicing MPSW9 wires. Each kit contains two shrouds.

HOW TO ORDER

Model #	Description	2021 List Price (US\$)
MPSMW9-SHD	Pair of Shrouds/Hardware for use with MicroPulse Wide Angle 9 light heads (sold separately) and under-mirror brackets (sold separately)	\$39.00
