

ESB2-CHGR15

BRACKET REDESIGNED

The ESB2-CHGR15 bracket has been updated to accommodate (1) or (2) ES100C speakers. This bracket places the speaker(s) below the bumper reinforcement bar. The ESB2-CHGR15 bracket is not suitable for use on vehicles equipped with adaptive cruise control option. For those models with adaptive cruise control, when dual ES100C speakers are desired, use (2) ESB-U brackets.
