

416302 GROMMET KIT

LIGHTING SOLUTION FOR 2021+ CHEVROLET® TAHOE® LIFTGATE

The new 416302 grommet kit includes a pair of angled rubber grommets to mount 416300 series lights (sold separately) to the bottom of a 2021+ Tahoe liftgate. This solution has an angled recess that compensates for the liftgate's angled bottom for a leveled projection of rear warning when the liftgate is open. The kit includes templates for ease of locating the drilling location centers.

416302 INSTALLED WITH 416300 LIGHT (SOLD SEPARATELY)
