

# MICROPULSE® ULTRA

## POPULAR MICROPULSE ULTRA MODEL AVAILABLE WITH EIGHT-FOOT CABLE

The popular Red/Blue/White tri-color MicroPulse® Ultra 6 model is now available with an eight-foot cable. The longer cable length provides easier installation in lower rockers, running boards, spoilers, and push bumpers. This additional length saves installation time by reducing connections. When used in rocker or running board placement, the additional length allows the connections to be made inside the vehicle to reduce outside connections.
